

Dance Class Photo Week & Photo Day

April 22-27 at the studio

Dance class groups & pre-paid individual photos will be taken by a professional photographer (P3 Imaging) during the last full week of April. Due to our new space, photographer availability, and many young classes, we have added a separate “Photo Day” for many of the classes. In order to be in the class photo and recital collage, dancers need to be in attendance during their photo day/time. Please arrive 5-10 prior to your assigned photo time. Please come dressed in your first costume and bring others if you have more than one class photo in a day. Pre-paid individual photos will also be an option. We will not take an individual photo of your dancer without the pre-paid form present. **Photo Order forms will be sent home and at the studio by the end of March.** Candid photos from both performances will be taken and available to view and purchase online immediately following the recital. We will still be having class/rehearsing during photo week, so it will be a busy time. Regular classes will meet all week long with adjustments for shared studio space. Thanks for being flexible. During photo week, parents will not be allowed into the photo room and may not take any of your own photos inside the studio, out of respect for the professional photographer.

Monday, April 22
